

Tuskegee Airmen Educational Toolkit

VIRTUAL STUDENT FEDERAL SERVICE

Project Title	Tuskegee Airmen Educational Toolkit
Project Summary	Interns will develop a toolbox that will provide Educators with programs and partnerships to get continuing education credits and teach students when completed.
Country	United States

Project Description

Parks can be excellent tools to help teachers bring the world into focus for their students, but like all of us they will take all the help they can get to do it. The Tuskegee Airmen Historic Site is looking for a few interns to help design and create lesson plan packages for grades 4-12. The lesson packages can focus on history, culture, science, technology, and engineering resources related to the history of the Tuskegee Airmen.
